

Training in Matrix Reimprinting

with
Ted Wilmont

Saturday 18 & Sunday 19 July 2009
St Mary's Resource Centre, Navan, Co Meath
€295 per person (special EFT trainee rate €245)

Don't miss your opportunity to be trained in this exiting new meridian energy technique. Aimed at EFT (emotional freedom technique) practitioners and those already trained and experienced in using EFT, the course takes you to practitioner level and is fully certificated and approved by AAMET.

The workshop will be run by advanced EFT practitioner and trainer Ted Wilmont, one of the first people in the world certificated to train this revolutionary new technique.

Developed by EFT master Karl Dawson, Matrix Reimprinting advances traditional emotional freedom EFT in a number of ways. It draws upon the findings of quantum physics and the New Sciences (especially the New Biology) and recognises that we are all connected by a unified energy field. It also draws upon the findings of cutting-edge and popular scientists such as Bruce Lipton and Rupert Sheldrake, and combines these with modern psychological theories and research.

* Over 95% of our daily activities and behaviours are governed by our subconscious, which is governed by the images of past events where trauma and core beliefs were formed.

* EFT Matrix Reimprinting enables us to change these images and improve every aspect of our life.

* It's a quick and easy to learn technique that literally changes the environmental signals to which our bodies respond.
